Always ready to go

- A 1.2m long cable that is ideal for outdoor use
- Durable Flexi-Grip makes a strong flexible connection

PHILIPS
sense and simplicity

Highlights

In-line remote with mic

Want to skip a track? Change the volume? Accept or reject a call? Record a voice memo? The remote features a sensitive mic as well as volume controls, call and skip functions. It can also trigger voice control. With this headset control is at your fingertips - no need to keep your iPhone or iPod accessible or to unlock the screen.

Ultra small efficient driver

This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

Passive noise isolation

The perfect, snug fit inside your ear stops unwanted background noise detracting from the pure pleasure of your favorite music. This means you still enjoy the headphones' superb sound quality at lower volume settings, and also benefit from a longer battery life.

Flexible rubber earhooks

The rubber earhooks provide a non-slip grip for an extra secure and comfortable fit, ensuring that the headphones remain in place for hours of comfort. Ideal for active use.

Turbo Bass

The unique bass wave design 'turbo-charges' the low tones by directing them towards your ears. The result is a fantastic realistic and a more involved experience.

For optimal fit in all ears

With a choice of 3 interchangeable ear caps from size small to large, surely there is a pair that makes these Philips earphones fit your ear perfectly.

1.2m cable

The ideal cable length to give you the freedom to put your audio device where you want.

Flexi-grip design

The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.

Anti-pull design

Thanks to its unique design no matter what activities you participate in these headphones will remain securely and comfortably inside your ears. When the cable is pulled they grip tighter.
